

Professor Naveed Sattar

Professor of Metabolic Medicine
University of Glasgow

Naveed Sattar is a clinically active academic experienced in biomarker studies/trials investigating the causes, prevention and management of diabetes, obesity and heart disease. He has authored or co-authored over 800 published papers (H-Index 102 Web of Science, 129 on Google Scholar, with >80,000 citations), and has received several national and international prizes for his research; including the Rank Nutrition Lecture from Diabetes UK (2018) and prestigious Minkowski prize (2011) from the European Association for the Study of Diabetes. He is amongst the

world's most cited clinical academics (top 1% of field) in clinical medicine as reported in Clarivate Analytics Highly Cited Researcher lists 2014-2017.

He has been on several national and international guideline committees, including: European Society of Cardiology (ESC) Task Force to develop 2019 Guidelines on diabetes, pre-diabetes, and cardiovascular diseases; Joint British Societies 3 CVD prevention recommendations; SIGN obesity and CVD prevention guidelines (as Chair); and European CVD prevention guidelines. He is currently involved in several lifestyle and drug trials in diabetes and CVD and leads on biomarker initiatives in other trials. He is also on editorial or international advisory boards for Lancet Diabetes and Endocrinology, BMC Medicine and UK Biobank, and is an Associate Editor for Circulation, and has spoken at numerous national and international meetings.
